

Little Red Riding Hood

(Michal Koválik)

Once upon a time there lived a girl called Little Red Riding Hood. Her mother sent her to visit her grandmother and bring her some cakes and a good wine. The journey was long so she decided to have a nap under an old oak. How many metres did she go, if it is 786,3 m from railway station to the block of flats. She took the train to the forest, it was 25 km. And she walked to the big oak 13000 cm. When she went farther she saw a meadow with flowers. She

decided to pick them up. She picked up 15 lilies, 12 more myosotises, 3 times more dandelions than daisies, daisies 2 times less than myosotises. When she was walking along the narrow path, she met a wolf. He asked her: "Where are you going?"

"I 'm going to visit my grandmother" said the Little Red Riding Hood. „Where does she live?" asked the wolf. Here on the meadow. Wolf has gone. When the Little Red Riding Hood came in to the house, the wolf was guised in grandmother's dress. He was waiting for a girl. What is the diagonal of the door, if the door is 1,68 m high and 500 mm wide?

"Hello granny, this is me Little Red Riding Hood."

"Come in" said the wolf. The girl was surprised." Grandmother, why do you have you big arms.

"All the better to scratch my bottom."

Grandmother, why do you have such big eyes?

"All the better to see you with."

Grandmother, why do you have such big teeth?

Stop asking!

Angry wolf jumped from the bed and started to chase the girl. She took the baton and she beat up the wolf. She called the FBI, they

arrested the wolf. They came on the 5 cars, which are 5 - seats. In the first 2 cars all seats were full, in other one, two seats were free, and in the other two cars were occupied 2 times less than in the first two cars. Is there a free place for the wolf, Little Red Riding Hood and grandmother? Little Red Riding Hood couldn't find the grandmother, so they started to look for her. They looked for in the house and also in the ceiling. Unfortunately after 10 minutes they found her asleep on the toilet.
