

# Dj Ales

(Matúš Kubášek)

Ales was a very famous Slovak Dj. He made some discos around Slovakia. He was on the competition between DJs and because he wanted to win a prize, he had to comply with some requirements. He had to prepare 2 discos during one month and play on the wedding. The problem was that he didn't have a car and connection. So he had to borrow a car. The grandfather said, if he goes with him more than 1000 km, he will have to pay 1000 €. Ales was from Brezovica. He packed his equipment and he started to do. First he had to go to Myjava. The way from Brezovica to Myjava is long:  $70 + 120 + 35$  km. Don't forget you have to count the way back too! After disco he came back home. Next day he went to Dolny Kubin which is 30 km away. Don't forget you have to count the way back too! But if Ales has to pay to grandfather, he will not go to the competition. So he had to play on the wedding and he had to go to Trnava. Trnava is very far from Brezovica, it is 240 km and he has to come back to Brezovica. If you count this task from the story, you will find out, if he won the prize.
