

Johnny Bean

(Katka Benická)

Once upon a time there lived one poor widow. She had one son Johnny and a cow. They had nothing to eat, so she sent Johnny to sell the cow. He had to go 3 km long journey. How long did the journey take if he goes 6 km per hour. Halfway he met the older man. He exchanged the cow for 16 beans. When he came home, mother asked him money. But he didn't give her money, he gave her 75 % of beans. How many beans did Johnny give to his mother? In the evening he threw out the other beans. In the morning, when he got up, he saw a very big bean. It was 1 km high. How long did it take to Johnny to climb on the top of the bean? He was climbing 0,5 km per hour. When he climbed on the top of the bean, he saw a giant castle. He run to him and he came in. In the castle there was a giant monster. He had a lot of gold, magic harp and a hen, which lays down the gold eggs on the table. Johnny took the gold, magic harp ,a hen and he run home. The monster woke up on the faint noise. He opened the door and he saw Johnny with the gold, hen and a harp. He was furious and he run after him. When he went down from the bean, he said to his mother to give him an axe. The monster fell of the bean and he died. Johnny with his mum were celebrating and they lived happily ever after.
