

Snow White

There once was a little girl with pasty face, that is why everybody called her Snow White. When she was one year old, her mother died. Today is already 16 years from this day. How old is Snow White? Her stepmother hated her because her mirror with a radius of 10 cm said, that on the world exists more beautiful girl than her. This girl is Snow White. What is circumference of mirror that dared to tell the truth to stepmother? The stepmother was dominated by pride so much, and she banish Snow White from the house. Sorrowful girl walked through the dark forest, and then suddenly reveal little elf before her and he told: "Do not be sorrowful a little girl. I know a place where you should stay. You have to go straight 650 meters and there you will see pool with a bridge. The bridge is 16 meters long. At the end of bridge are two roads. You have to turn the right and after 1134 meters you will see a small cottage." As soon as he said, he lost in the dark. How long she had to go to cottage, if she goes 1,5 km/h? When she arrived at the place, she knocked on the door of cottage. After a moment the door opened, but she did not see anybody there. Suddenly she heard a quiet and rasping voice, which called her. She bowed her head and she saw seven little elves. She asked them if they would have adopted her between themselves. They agreed of course and were happy that finally someone will care for them. Snow White knit to all elves warm socks as an expression of thanks. How much wool will she need for all the socks, if for one sock she needs 30 cm of wool? Some day a forest visited the prince, he saw Snow White and he fell in love with her. A fairy tale is over.
